### Legal Repercussions

If you're found transporting contraband, law enforcement won't hesitate to impose fines on you. These fines can range from 2,000 aUEC to 10,000 aUEC, depending on the severity and quantity of your cargo. Besides the monetary fines, authorities will also confiscate any illegal substances found in your possession. Such financial penalties can severely impact your operations and profitability.

**Jumpstown** In addition to the specified trade spots, there are four 'Jumpstown' event locations—Yela, Hurston, Daymar, and Microtech—that continue to sell contraband outside of the event. During Jumpstown events, you can either sell contraband conventionally or opt to deliver it to a LEO port for an additional aUEC bonus. However, engaging in the unlawful path is generally more lucrative.
